Style: Oyster Stout

ABV: 5.4%

IBU: n/a

A beer not found on many taproom lineups, this full-bodied oyster stout was brewed in collaboration by the brewers at Eleventh Hour and Merchant Oyster Company. Things Remote starts off pouring jet black in color with a light tan head. Over 40 pounds of oyster shells were added to the boil, delivering a subtle note of salt air in the aroma. Oyster characteristics are present but subdued, playing nicely with lactose sugars from the sweet stout base and providing a dry finish on the back end.
